

Human Right Film Festival Zurich

Here we were able to meet and interview [Fred Baillif](#), author of [La Mif](#), a film that has already been screened at ZFF and GIFF, and also at the Luststreifen film festival in Basel and Castellinaria in Bellinzona. Coming from Locarno Film Festival, it was a pleasure to see Elene Naveriani's [Wet Sand](#) in the Zurich programme.

Together with films already discussed on Filmexplorer such as Dea Gjinojci's [Réveil sur Mars](#) and Luzia Schmid's [Der Ast, auf dem ich sitze](#), the festival launched the German Swiss cinema premieres of Laurent Stoop & Svetlana Rodina's [Ostrov](#) and Salomé Jashi's [Taming the Garden](#).
